

Yangebup Dental Re-opening for Business

The Government's announcement that dentists can provide all dental treatments to patients means we're open and would like to re-book your postponed appointment.

Thank you again for being patient with us as we've implemented the restrictions required by Government and relevant authorities as part of the response to the coronavirus (COVID-19).

We want to assure you that our priority remains the safety and wellbeing of people - our patients, our people and the community. In line with this commitment we're continuing a number of safety measures to help minimise any risk of COVID-19 exposure within the practice.

These include:

- *Our team members staying home if they have been in contact with a confirmed or probable case of COVID-19, or are feeling unwell with flu-like symptoms;*
- *Standard infection control procedures to reduce the spread of any infection;*
- *The use of personal protective equipment (PPE) for all treatments such as standard level 2 surgical masks, protective eyewear and gloves;*
- *Strengthened cleaning procedures, including actively promoting the regular use of antibacterial hand sanitiser and surface wipes;*
- *Stringent personal hygiene measures for our people;*
- *Requesting patients reschedule their appointment if they are or have recently been unwell, or are experiencing any flu-like symptoms; and*

To re-book your appointment, please contact us on 08 94179888, via email at info@yangebupdental.com.au or book [ONLINE](#).

We look forward to hearing from you and hopefully see you all soon.

Keep Smiling:)
